# Introduction

---

Also refer to the following document:

- General DECT Handset Information Guide

### **Notice on the use of the handsets**

---

Like all cordless telephones, the G266 and G566 DECT handsets use radio signals, which do not guarantee a connection under all circumstances. Do not rely exclusively on the DECT handsets when making indispensable calls (such as medical emergencies).

### **SOS function**

The SOS function of the G266 and G566 does not replace companion supervision by a colleague or other people. In case of critical, emergency or life-threatening situations make sure that other persons are present or that appropriate measures are taken.

# Getting started

## Installing the battery pack

1. Place the handset face down on a flat surface.
2. Pull the lock at the bottom of the battery compartment cover upward and at the same time shift the cover downwards.
3. Remove the battery compartment cover.
4. Push the battery pack into the casing.
5. Replace the battery cover.

## Installing the charger

1. Place the charger on a flat surface.
2. Connect the micro-B USB connector of the USB cable to (the back of) the charger.
3. Connect the type A USB connector to the USB AC/DC Adapter.
4. Connect the adapter to an electrical outlet.
5. Place the handset on the charger as shown in [Figure 1](#).

Figure 1: G566d, G566s and G266 in Desktop Charger

### Charging the batteries

Place the handset in the charger as shown in [Figure 1](#). For a few seconds the display of the handset shows:

**Figure 2: Battery charging display**

***Attention:***

The handset, if switched off, automatically switches on when placed in the charger.

### Charging a spare battery

The Gx66 Desktop Charger can be used to charge a spare battery pack for the G266/G566. To charge a spare battery pack:

1. Place the spare battery pack in the spare battery charging slot compartment. (Upside down and text on the battery pack to the front.)
2. Slid the spare battery pack under the metal rim to keep it in place.

### Charging guidelines

Please read the concerning section in the DECT Handsets – General Information Guide carefully!

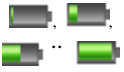

### Charging and operating times

Discharged batteries require 7 hours (using the spare battery slot might take longer) to completely recharge. Completely charged batteries provide the handset with up to 20 hours of talk time and 160 hours of standby time.

## Charge display

The battery charge status appears on the top of the display screen:

**Table 1: Battery charge status icons**

Icon	Charge status
	Almost empty
	Less than 10%
	10% to 20%
	20% to 90% (the bigger the green bar, the higher the charged percentage)
	Fully charged (more than 90%)

When the battery is nearly discharged a warning beep sounds and, when not in a call, the display shows:

**Figure 3: Battery low display**

You cannot make calls while this message appears.

# Getting started

## Handset keys and display areas

**Figure 4: Elements of the G266**

**Figure 5: Elements of the G566**

## Handset keys

**Table 2: Keys of the Handset**

Key		Description
<b>LEFT SOFT KEY</b>		Key related to the action given on the bottom left of the display.
<b>MIDDLE SOFT KEY</b>		Key related to the action given on the bottom middle of the display.
<b>RIGHT SOFT KEY</b>		Key related to the action given on the bottom right of the display.
<b>UP</b>		Use the navigation keys to: <ul style="list-style-type: none"> <li>– Select the required menu icon or menu element;</li> <li>– Navigate the cursor;</li> <li>– In some cases change (increase/decrease) a given value;</li> <li>– Access the shortcut assigned to it.</li> </ul>
<b>DOWN</b>		
<b>LEFT</b>		
<b>RIGHT</b>		
<b>OK</b>		Used to acknowledge menu selection.
<b>CALL</b>		Used to go off hook and to initiate enquiry/hold/shuttle.
<b>CLR</b>		Use the Clear key to <ul style="list-style-type: none"> <li>– Release a call;</li> </ul>

## Getting started

Table 2: Keys of the Handset

Key		Description
		<ul style="list-style-type: none"><li>– Return to the previous step in a menu;</li><li>– Switch your handset off (long press)</li><li>– Switch your handset on.</li></ul>
SOS		Long press the SOS key to make an emergency call (if configured).
VOLUME UP		To increase the handset volume.
VOLUME DOWN		Decrease the handset volume.
1–9		Use <b>1 – 9</b> to <ul style="list-style-type: none"><li>– Insert a digit in a number;</li><li>– Insert a character;</li><li>– Select a <b>Speed dial</b> number</li></ul>
0		Use <b>0</b> to <ul style="list-style-type: none"><li>– Insert a 0 in a number;</li><li>– Insert a character.</li></ul>
*		Use <b>*</b> to <ul style="list-style-type: none"><li>– Insert a * in a number;</li><li>– Insert a character</li><li>– Insert a decimal point (Calculator feature).</li></ul>

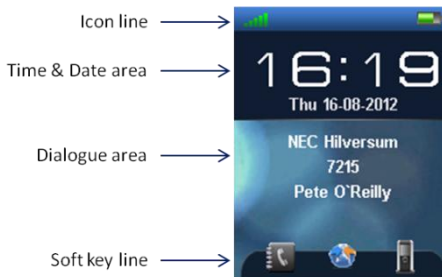

**Table 2: Keys of the Handset**

Key		Description
#		Use # to <ul style="list-style-type: none"> <li>– Insert a # in a number;</li> <li>– Switch between <b>Normal</b> and <b>Silent</b> (sounds &amp; alerts) settings by long pressing (more than 2 seconds) the key.</li> <li>– Toggle the character case (capital, lower case or digit) when in edit mode.</li> </ul>
LINE KEY		Only for the G566 Use one of the four Line keys to <ul style="list-style-type: none"> <li>– Select a <b>Speed dial</b> number</li> <li>– Access the shortcut assigned to it.</li> </ul>

## Display

[Figure 6](#) shows the four areas of the display:

- Icon line
- Time & Date area
- Dialogue area
- Soft key line

**Figure 6: Display screen**

# Getting started

## Icon line

The icon line displays the status of the handset.

**Table 3: Icon line icons**

Icon	Description
	Level of radio signal (always shown)
	New text message received
	Voice message waiting indication
	Keypad locked
	Alarm set
	Missed calls
	Ringer deactivated
	Caller filter active (only for G566 DECT Handset)
	Battery charge status Refer to <a href="#">Table 1</a> for Battery status icons.

## Time & Date area

The Time & Date area is only shown in the Idle mode and gives the current time and date. In any other mode this part of the display is added to the Dialogue area (see next).

## Dialogue area

The Dialogue area displays information according to the operational mode of the handset:

### Idle mode

In Idle mode, the dialogue area displays information like DECT system name, handset's DNR, and so on.

Figure 7: Idle mode screen

### Call mode

In Call mode, the dialogue area displays information related to the call, like number and name of the calling/connected party and some status icons (see [Table 4](#) and [Table 5](#)).

Table 4: Call Set-up icons

Icon	Description
	Incoming call <i>One to three green "circles" intermittently shown</i>
	Outgoing call <i>One to three blue "circles" intermittently shown</i>

# Getting started

**Table 5: Call Conversation icons**

Icon	Description
	Call in conversation <i>Call set-up <u>by</u> this phone</i>
	Call in conversation <i>Call set-up <u>to</u> this phone</i>
	Loudspeaker on
	Microphone muted while loudspeaker on
	Microphone muted while loudspeaker off

## Dialogue mode

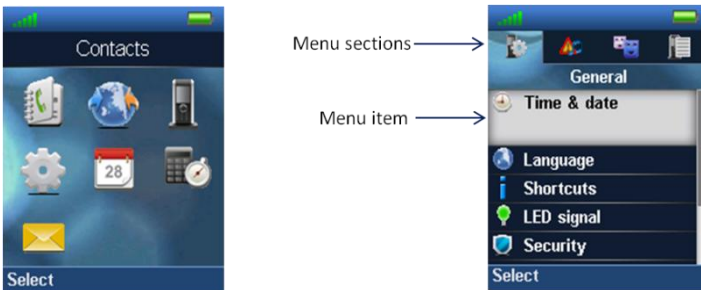

In Dialogue mode, the dialogue area displays dialogues regarding missed calls (see [Figure 8](#)), messaging, menu settings, warnings and so on (see for some examples).

**Figure 8: Examples Dialogue mode**

## Menu mode

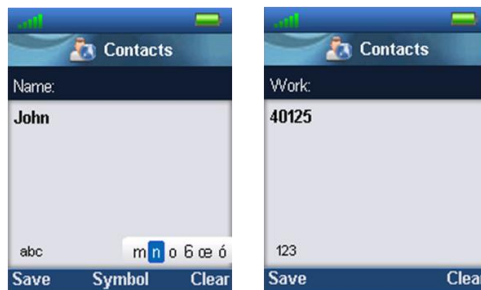

In Menu mode, the dialogue area displays the menu icons or menu sections (tabs) and the specific menu items. E.g., :

**Figure 9: Main menu and General setting menu**

## Edit mode

In Edit mode, you can use the dialogue area to enter and edit digits (e.g., for numbers) and text, e.g., for contact information editing:

**Figure 10: Contacts name and number editing**

[Table 6](#) shows the key to press to insert letters, numbers or symbols.

Besides the physical keys also the **Symbol** soft key is used in the Edit mode to insert (symbol) characters.

# Getting started

**Table 6: key functions in text mode**

Key	Uppercase	Lowercase
1	1 . ! ? , - " @ + : :	1 . ! ? , - " @ + : :
2	A B C 2 Æ À Á Â Ã Å Ç	a b c 2 æ à á â ã ä å ç

*	*	*
#	Toggle character case: Abc → ABC → abc → 123	
<b>Symbol</b>	. , ` ? ! " - ( ) @ / : _ ; + & % * = < > £ (space) \$ ¥ ° [ ] { } \ ~ ^ _ ` ¡ ¢ £ ¤ ¥ ¦ § ¨ © ª « ¬ ® ¯ ° ± ² ³ ´ µ ¶ · ¸ ¹ º » ¼ ½ ¾	

### Soft key line

Soft keys appear below the handset dialogue area. The key functions change automatically according to the operational state of the handset.

# Getting started

## Used notation in this manual

Main menu icons are used to indicate selection of the appropriate menu.

To select the appropriate main menu item use the **NAVIGATION** keys.

Off-white box with text indicates a selected menu item.

To select the appropriate menu item use the **UP** and/or **DOWN NAVIGATION** key.

White box with dark blue top containing text indicates some text or number needs to be given.

To supply the necessary information use the keypad and the **NAVIGATION** keys.

Dark box with question mark indicates a question that the user needs to answer to.

To supply the answer use the appropriate soft key.

Press the indicated key.

The blue box with text indicates a soft key.

The three icons are special soft keys (available in the idle state).

Select the appropriate soft key to execute the indicated action:

Left soft key

Middle soft key

Right soft key

Use the keypad and/or the **NAVIGATION** keys to enter or change a number, date, name or text:

- Use the keypad to insert one or more digits (0 – 9, \* and #) or characters
- To delete a digit or character use soft key **Clear**
- Use the Navigation keys to move the cursor to the insertion point
- Use the Up or Down Navigation key to increase or decrease the value of the selected field

Use (one of) the **NAVIGATION** keys

Use **LEFT** and/or **RIGHT NAVIGATION** key

Use **UP** and/or **DOWN NAVIGATION** key.

## Getting started

[ ... ]<sup>n</sup>

Press (soft) key given between the brackets one or more times

Optional step(s):

The following step(s) is (are) optional (and marked by a blue line), i.e.,

- they can be skipped by the user OR
- they are not offered to the user.

→ ❶

Used when the following actions (steps) depend on some condition. The condition is preceding the arrow, and the next action to be taken is marked by the indicated number (here: ❶).

All actions belonging to set of actions to be taken, are marked by an orange line at the beginning of the actions.

## General functions

---

### Switching the handset on

---

1. 

### Switching the handset off

---

1.  > 3s
2. 

### Key lock

---

**Attention:** You can dial 911 and 112 when the key lock is active.  
The key lock does not affect the **SOS** key.

### Locking or Unlocking

1. 
2. 

Also automatic keypad lock can be set from the Settings menu.

## Call features

### Make a call

#### Dialling a number

1. 
2.  Enter/edit: Number

#### Using Predial mode

1.   Enter/edit: Number
2. 

#### Using Central or Private Directory<sup>1</sup>

1.  Or 

#### Optional step(s):

2.   Enter the first character(s) of the required name
3. 
4.  Select: required contact

#### Optional step(s):

5.  Select: appropriate number
6.  Or 

<sup>1</sup> Central Directory is only available if it is provided by your communication system

## Using Speed dial

1.  .....  Long press  
Or 

## Making an SOS call

See also [Configuring emergency or SOS calls \(page 96\)](#).

1. 

## Answering a call

---

### Answering a call in Normal mode

1.  Loudspeaker off  
Or  
1.  Loudspeaker on

### Answering a call using any key

See also [Answer mode configuration \(page 90\)](#).

1.       Loudspeaker off  
Or  Or   
Or  
1.  Loudspeaker on

### Auto-answering mode

See also [Answer mode configuration \(page 90\)](#).

To answer an incoming call no manual action is required.

### Muting the ringer of an incoming call

1. 

### Rejecting an incoming call

1. 

# Call features

## Change settings during a call

---

### Adjusting the headset or loudspeaker volume

Volume up:

Volume down:

Adjusted volume setting is saved for future calls.

### Using mute during a call

#### Deactivate the microphone (mute)

- 1.

#### Activate the microphone (unmute)

- 1.

### Activate and deactivate the loudspeaker (toggle function)

- 1.

Using the loudspeaker enhances the possibility that the speech is distorted. Therefore your DECT handset is no substitute for a conference device!

## Transferring a call

---

### Dialling second destination then transfer

- 1.
2. Enter/edit: Number

#### Optional step(s):

- 3.
- 4.

## Using Private or Central Directory then transfer

1. 
2.   Or
3.

### Optional step(s):

4.   Enter the first character(s) of the required name
5.
6.  Select: required contact

### Optional step(s):

7.  Select: appropriate number
8.  Or

### Optional step(s):

9. Await answer
10. 

## Shuttle the call

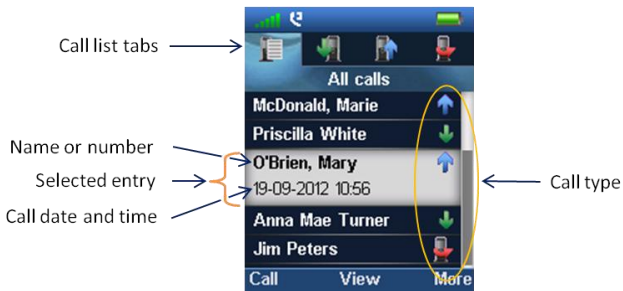

To alternate between the two parties (before transfer):

1. 

## Calls list

**Table 7: Call type icons and Call type tabs**

# Messaging<sup>5</sup>

---

## Normal, urgent and emergency messages

The system differentiates between **Normal**, **Urgent** and **Emergency** messages.

*Note:* It is not possible to send an **Emergency** message from your DECT handset.

### Normal messages

The melody assigned to **Notification normal** plays when you receive a normal message. If you receive a normal message during a call, a short alert tone sounds.

### Urgent messages

The handset shows urgent messages immediately on the display.

The melody assigned to **Notification urgent** plays when you receive an urgent message. The ringer volume increases to the maximum during the signalling process. If you receive an urgent message during a call, a repeated short alert tone sounds.

### Emergency messages

The handset shows emergency messages immediately on the display.

The melody assigned to **Notification emergency** plays when you receive an emergency message. The ringer volume increases to the maximum during the signalling process. If you receive an emergency message during a call, a repeated and in volume increasing short alert tone sounds.

---

<sup>5</sup> Only for the G566

## Confirming receipts

You must confirm the receipt of urgent and emergency messages. If you do not confirm the message within 60 seconds, the initiator receives a message that indicates the message was not delivered.

To confirm:

**Positively:**  Or 

**Negatively:**  Or 

## Message list full

### *Attention:*

If the display shows this warning no new message can be received. Delete some messages or change the **Overwrite old** setting to **On** – see [Message settings \(page 52\)](#).

## Message Menu Sections

### Adding an entry to the Caller filter list

Open Settings menu section: 

1. 
2. **Select**
3. 
4. **Select**
5. **Add**
6.   → ❶  
 → ❷  
 → ❸

#### ❶ Lookup contact

7. **Select**
8.  **Select: required contact**
9. **Select**

<sup>13</sup> Only for the G566

# Telephone settings

10.

Yes

11.

## 2 Enter number

7.

Select

8.

Enter number

9.

Save

10.

Name

Abc

11.

Save

12.

Yes

13.

## 3 Central directory

7.

Select

8.

Enter the first character(s) of the required name

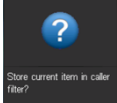

9.

OK

10.

Select: required contact

11. 
12.   

13.  <sup>n</sup>

## Changing a Caller filter entry

Open Settings menu section:

1.  
2. 
3.  
4. 
5. 
6.  
7. 
8.  Select: required entry
3. 

Continue as in [Adding an entry to the Caller filter list \(page 91\)](#).

② - **Enter number**, from step 8

# Telephone settings

## Deleting an entry from the Caller filter list

Open Settings menu section:

1.

2.

3.

4.

5.

6.

7.

8.

Select: required entry

9.

10.

11.

## Deleting all entries in the Caller filter list

Open Settings menu section:

1.

# Telephone settings

2. **Select**
3.  
4. **Select**
5. **More**
6.  
7. **Select**
8. 
9.  
10. **OK**
11. 

## Activating Caller filter

[Open Settings menu section:](#)

1.  
2. **Select**
3.  
4. **Select**

## Telephone settings

5.   → Accept only calls from callers in the **Caller filter**
-  → Don't accept calls from callers in the **Caller filter**
-  → **Caller filter** not used
- Note: Currently set value is marked by a blue dot (●)*

6. 

7. <sup>n</sup>

## Configuring emergency or SOS calls

### Assigning emergency call number

Open Settings menu section:

1.  
2. 
3.  
4. 
6.   → ❶
-  → ❷
-  → ❸

❶ Lookup contact

7. 

8.  Select: required contact

9. **Select**

10. [  ]<sup>n</sup>

## 2 Enter number

7. **Select**

8.  

When no number is entered then the **Emergency call** feature is disabled

9. **Save**

10. [  ]<sup>n</sup>

## 3 Central directory

7. **Select**

8.  

Enter the first character(s) of the required name

9. **OK**

10.  Select: required contact

11. **Select**

12. [  ]<sup>n</sup>

# Telephone settings

## Assigning an emergency message<sup>14</sup>

Open Settings menu section:

1.

2.

3.

4.

5.

To make a voice call **no Emergency call** message should be defined.

6.

7.

## Assigning the Silent charging feature

Open Settings menu section:

1.

2.

3.

→ **Silent charging** not used

→ Disconnect from the system while in the charger<sup>15</sup>

→ Turn off the ringer (and vibrator) while in the charger

<sup>14</sup> Only for the G566

<sup>15</sup> If configured: redirect call to alternative destination

Note: Currently set value is marked by a blue dot (●)

4. **Select**

5. [  ]<sup>n</sup>

## Defining the missed call time

Open Settings menu section:

1.  

2. **Select**

3.   

4. **Save**

5. [  ]<sup>n</sup>

## Voice mail

Use the Voicemail feature to listen to voice messages left by calling parties<sup>16</sup>. You receive a voicemail in the following situations:

- if your handset is switched off
- if your handset is busy
- if your handset is out of the coverage area

A new voice message dialogue appears only once, i.e., when a caller leaves a first new message in the mailbox. A voicemail

<sup>16</sup> Your communications system needs to support the Voicemail feature

# Telephone settings

symbol (  ) appears in the icon line; it disappears after you play the message.

## Assigning the Voicemail number

Open Settings menu section:

1.

2.

3.

4.

5.

## Connectivity settings

Table 15: Connectivity settings

Item	Description	Page
	<ul style="list-style-type: none"> <li>Register handset to a DECT system</li> </ul> <p>Please contact your System Administrator</p>	-
	<ul style="list-style-type: none"> <li>Remove registration your handset from a DECT system</li> </ul> <p>Please contact your System Administrator</p>	-
	<ul style="list-style-type: none"> <li>Select which DECT system is to be used (only if the handset is registered to more DECT systems)</li> </ul>	<a href="#">101</a>

### DECT system selection

Open Settings menu section:

1.

2.

**Select**

3.

→ Handset selects DECT system automatically

→ Select: required DECT system (here e.g., **NEC Hilversum**)

*Note: Currently set value is marked by a blue dot (🌐)*

# Telephone settings
