JABRA LINK™ 14201-31

Electronic Hook Switch Solution for NEC phones

Jabra®
YOU'RE ON

The Jabra Link™ 14201-31 enables remote Electronic Hook Switch Control (EHS) with Jabra wireless headsets and the NEC DT730 IP Phones (Standard SIP).

Jabra wireless headsets with EHS functionality boost productivity as they provide the user with the ability to control a call, while away from their desk.
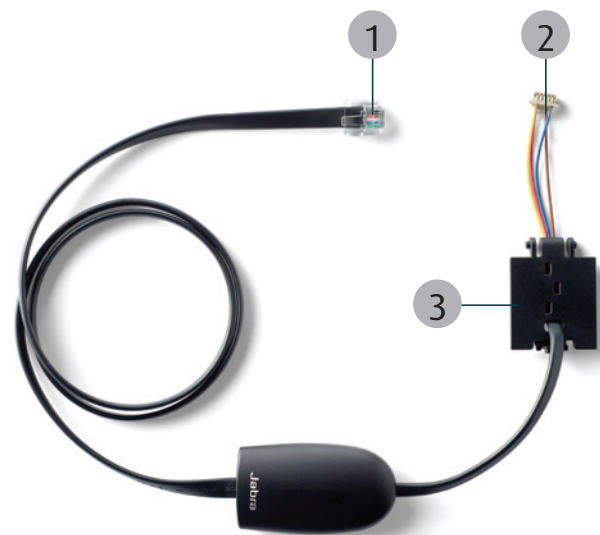

THE EHS ADAPTER ALLOWS THE USERS TO:

- Hear ring tones
- Answer and end calls
- Mute and reject calls
- Adjust the volume
- Redial

All from their headset and quite convenient, when they are up to 150 meters/450 feet away from their desk. The integration of desk phone and headset allows users to benefit from enhanced mobility and the ability to multitask while on a call. The wireless freedom improves work efficiency and ergonomics throughout the day.

HOW IT WORKS

The Jabra Link 14201-31 is a simple solution that converts from the EHS standard used in the NEC DT730 IP Phones to the Jabra IQ™ standard used in Jabra headsets – and vice versa.

Download the latest firmware from www.jabra.com/PCsuite to ensure the headset is using the Jabra IQ standard.

1. Connect to AUX port on headset
2. Attach to NEC phone
3. Port to integrate with NEC phone

COMPATIBILITY

The Jabra Link 14201-31 is compatible with the NEC DT730 IP Phones and most Jabra wireless headsets. For more details see the specifications on page 2.

TECHNICAL SPECIFICATIONS
