# SlimLine™ Speakers

Valcom's Slimline™ Wall Speaker is a contemporary design for areas that require a more stylish appearance. The Slimline Wall Speaker may be used for one-way or talkback paging and is ideal for doctor's offices, retail, waiting areas and schools. Designed with a high density polypropylene enclosure to minimize vibration, the Slimeline Wall Speaker is easy to install and hangs from a single screw or uses two screw bosses to properly secure.

Self-amplified, built-in volume control
