

Page Controls

The V-2006A page control unit is a 6-zone paging system that allows the user to page six individual zones of one-way paging, plus all call. The built-in tone generator enables you to notify with individuals through a variety of tones indicating various events such as break time. The V-2006A also has an emergency page override for priority messages so you can alert individuals of emergency or priority notifications.

The V-2006AHF is capable of providing handsfree talkback and/or one-way paging.
