# Paging Horns

Valcom's Analog and IP Paging Horns offer high-efficiency, excellent intelligibility, and sturdy construction for indoor/outdoor applications. The analog versions are available in 5-watt, 15-watt or talkback. The one-way or talkback IP horns' convenient design is Power over Ethernet (PoE) 802.3af compatible with a long line extender that allows cabling up to 1200 feet. Valcom's horns have an Omni-Lock™ ball and socket mounting system, with moveable 360° rotation for flexibility — other horns only go up and down! They can also be easily mounted to a wall or electrical box and it includes a "C" clamp for I-Beam mounting. They are ideal for industrial plants, warehouses, parking lots, stadiums, schools, transportation terminals, parks and recreational areas.
