Wiring

Wiring through a wall

Drill a ¼" hole for the Ethernet cable to feed through.

The mount can accept cable entry through the back.

Wiring through the opening

If wiring through the ¾" NPT* opening at the base, remove the closure plug.

*(USA) National pipe taper

Attach a standard ¾" NPT conduit fitting.

Wall Mounting

For Wall Mounting (drywall, plaster and wood paneling)

Mark the 4 pilot hole locations and drill 1/4" pilot holes.

After drilling, clear dust and debris from hole.

Mount by pressing the wall anchors into the pilot holes until flush.

With a #2 Phillips head screwdriver, use provided #8 wall screws to secure the Arm Mount against the wall.

Installation

Mounting with Pole or Corner Mount 1/2

Attach Arm Mount to hole pattern 1 of Corner Mount or Pole Mount using the included machine screws.

To secure, tighten the machine screws using the provided 3mm Hex key.

Installation

Mounting with Pole or Corner Mount 2/2

Use the internal 1.5" NPT threads to screw a Pendant Cap onto the Arm Mount.

After attaching the Verkada device to the mount, tighten the set screw with the provided 3mm Hex key.

Please see additional install steps for the device you are mounting in its respective Install Guide.

Appendix

Support

Thank you for purchasing this Verkada product. If for any reason you're experiencing issues or need assistance, please contact our 24/7 Technical Support Team immediately.

Sincerely,
The Verkada Team
