Cover your site from all angles with the on-premise Avigilon H5A Multisensor camera that works together with Avigilon Unity Video software. It combines AI-enabled video analytics and three or four adjustable sensors into one powerful solution. Monitor virtually any area in all lighting conditions with up to 360-degree views from a single camera. This makes the Unity H5A Multisensor perfect for securing wide areas, including outdoor building corners, parking lots, crossroads, as well as indoor areas with high ceilings, long corridors and hallway intersections.

Features

Next-Generation Video Analytics

Detects more objects with expanded object classifications and greater accuracy for faster responses, even in crowded scenes.

Varifocal Lenses

Enables you to customize the field of view to optimally protect your site, while lens distortion correction provides a seamless viewing experience.

Impact, Water, Dust & Corrosion Protection

Protects against impact, water, windblown dust and a degree of corrosion with IK10, IP66/67, NEMA Type 4X and TS2 ratings.

FIPS 140-2 Compliant With Integrated TPM

Meets the high data security standards required by federal government agencies and heavily regulated enterprises with FIPS-compliant cryptography support, integrated TPM and Secure Boot.

ONVIF® Compliant

ONVIF Profile S and T compliance enables easy integration with existing ONVIF infrastructures. Profile G compliance supports search, playback and retrieval of recordings on the edge, while Profile M allows for cross-functionality with third-party analytic solutions.

High-Quality Images In All Lighting

Sees clearly in the most challenging lighting conditions with faster frame rates, improved Wide Dynamic Range and optional IR illumination.
